

May 2019

Dear Parent/Carer,

As you will be aware from earlier mailings and website articles we have put some additional support in place for Year 13 in preparation for their Final Examinations.

- School is open every Saturday between 9.30am-2.00pm for independent study and for access to on-line revision resources.
- Intervention Sessions (see attached)

This academic Year we have also introduced focussed revision sessions prior to each examination (see attached). These are to assist students who would benefit from extra tuition in the final push before examinations. We have found that students benefit enormously from a concentrated period of revision, free from distractions and in the company of similar students. The opportunity to focus on particular areas of difficulty in small groups is especially useful.

Aside from this student will be expected to attend their normal lessons if they do not have any examination at that time unless a dedicated intervention session has been arranged for them.

The Sixth Form Block and quiet spaces will be available for your child to study if they are not in a dedicated intervention session or in an examination.

Yours sincerely
